

GAME: *Flip a coin, heads or tails.*

BEST TIME TO PLAY: *Word Families 018 flip, 062 toss, 073 tail, 087 side and Sight Word 072 last.*

OBJECT OF GAME: *Remain the last student standing by guessing the correct coin toss.*

* Before the teacher flips a coin, the students must choose to stand on the left side (heads) or the right side (tails). Students who are correct remain in the game.

* To keep eliminated students engaged and burning energy, they must wall sit.

* When only two or three students remain, the teacher picks out a Popsicle stick for one eliminated student to return playing. I use this technique all the time, Simon Says, etc.

* The winner gets a point or whatever prize you feel is appropriate.

Heads

Tails
