"Will I Get Heartburn?"

I bought a machine (*a tool*) that turns milk or cream into butter. It was broken. I could not churn butter.

I returned the appliance (*a tool*) with a stern (*serious*) letter. I spurned buying the equipment (*guess what, another tool*).

The company (*business*) learned of my displeasure. They were concerned (*worried*) and sent me a new machine.

I can now churn butter and suffer (*a bad feeling*) from heartburn.
