"Shawn Eats Shrimp"

Shawn went to Bangladesh on a ship.

The reason was to fish offshore.

He soon had a plate of shellfish in front of him. It vanished in seconds.

Suddenly, Shawn was short of breath.

The symptoms were so harsh. He had a skin rash. Feeling sluggish, he was rushed to a hospital. A doctor gave him a shot. She told Shawn,

"You have a seafood allergy."

Shawn will never eat shrimp again!
