rhymes with blue = blue crayon

Advanced "Can He Rescue a Statue?"

My brother sold an antique (*an old item that is worth money*) statue for only \$1. It is of great value. I went to the venue to argue my issue and hopefully rescue the unique (*rare*) statue.

I spoke, "My brother did not have a clue of its value."

I repeated this until I was blue in the face. There was nothing more I can do other than accept his miscue.
