I like him.

We like him.

You like him.

She likes him.

He likes him.

It likes him.

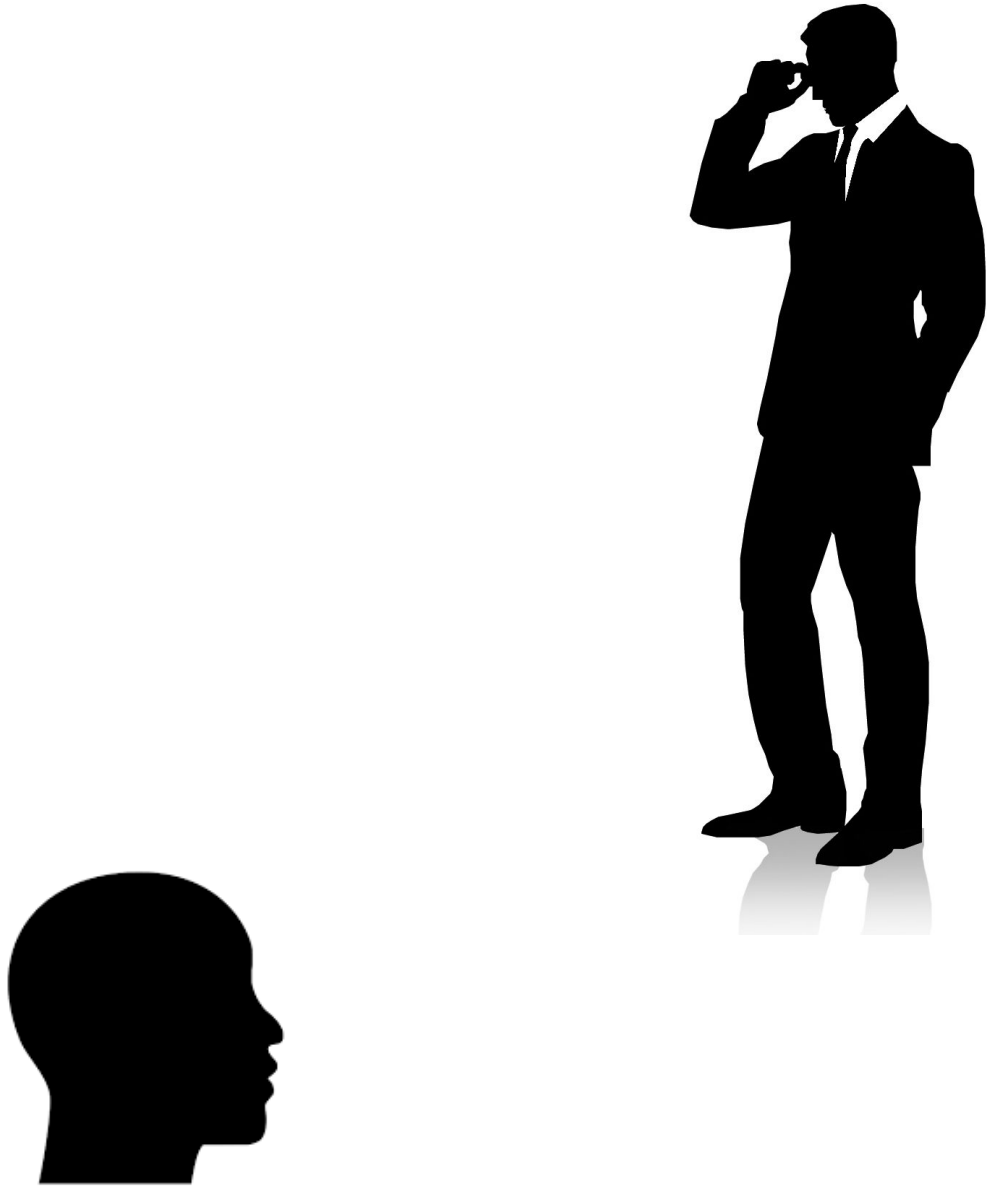

They like him.

Am I
like him?

Are we
like him?

Are you
like him?

Is she
like him? No!

Is he
like him? Yes!

Is it
like him? No!

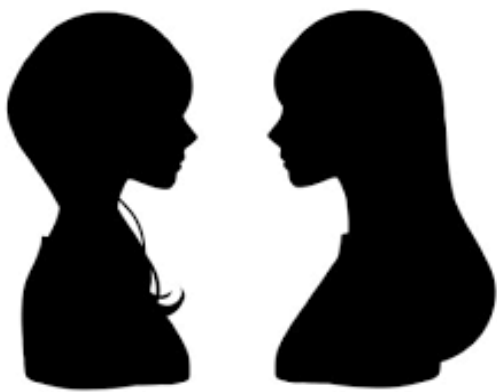

Are they
like him?

I am
like her.

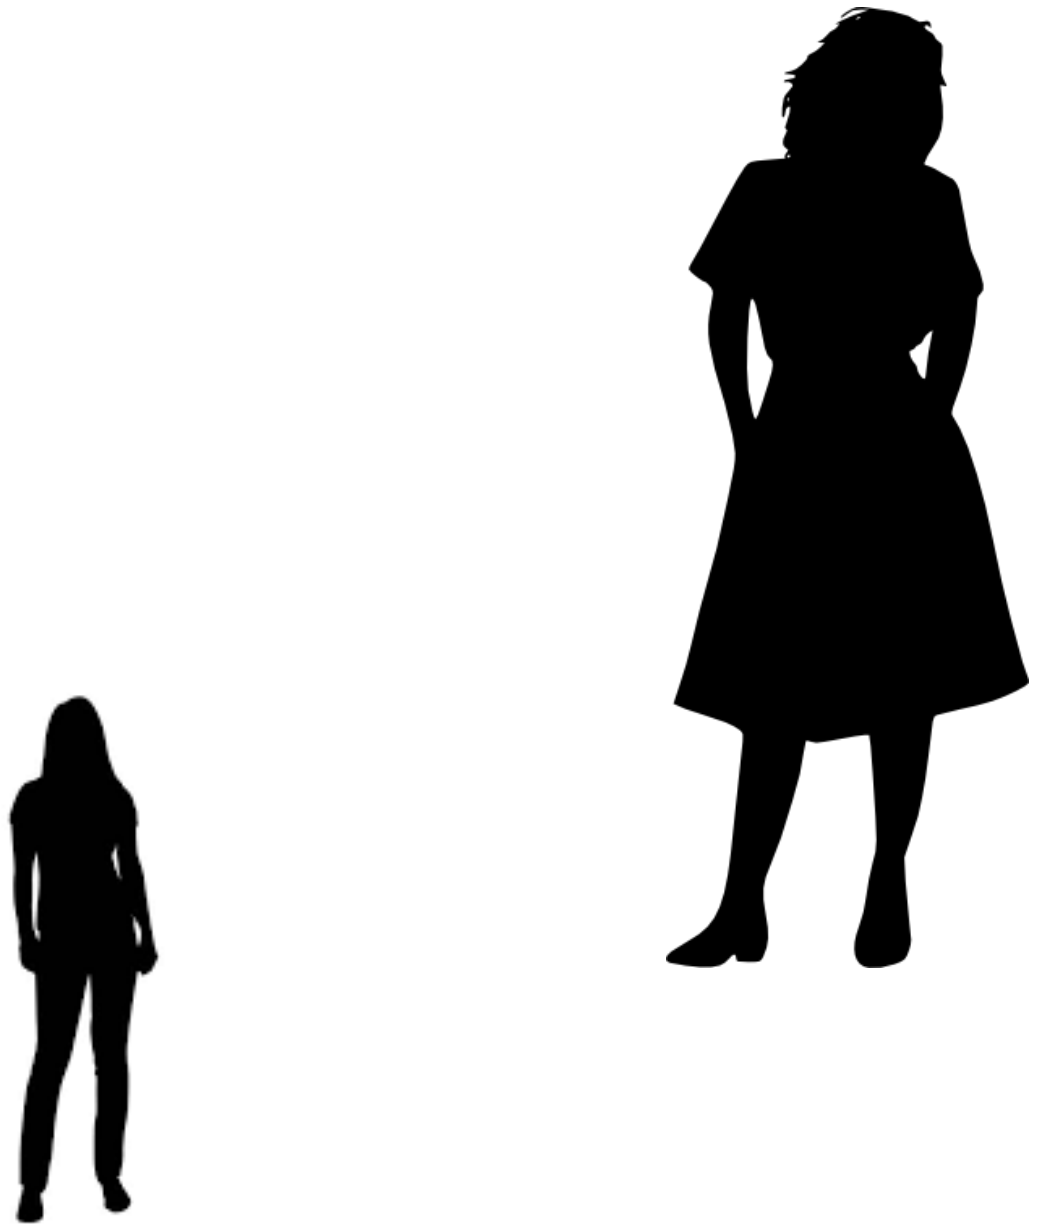

I was
like her.

We are
like her.

We were
like her.

You are
like her.

You were
like her.

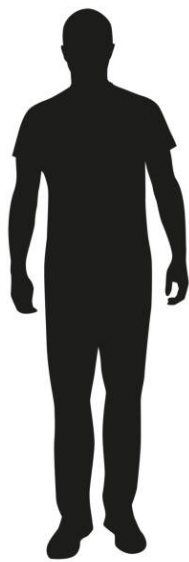

She is
like her.

She was
like her.

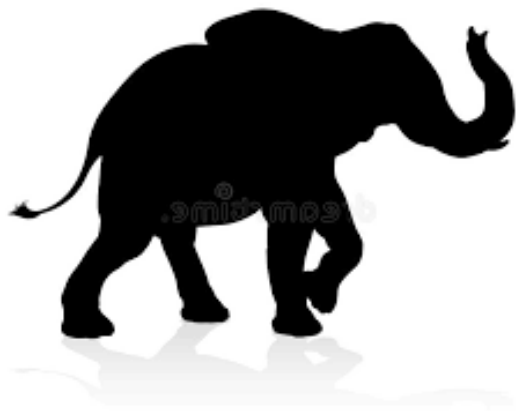

**He is not
like her.**

He was never
like her.

It is not
like her.

It was never
like her.

They are
like her.

They were
like her.
