

"Even and Odd" #065 & #066 even & odd

A teacher said,
"We will talk about
even and **odd** numbers."

A boy said the *even* numbers,
"Two, four, six, eight...
whom do we appreciate?
Our teacher!"

A girl said the *odd* numbers,
"One, three, five, seven, nine...
time to get in line."

The teacher said,
"*Even* if you two are *odd*, boo hoo,
I still like you."
