

"Tired of Cliques"

Sight Word #233 clique

Man: I am tired of **cliques**.

Woman: I agree. Clicking a pen is annoying.

Man: No, a **clique** as in a group of people who do not allow others to be with them.

Woman: Why would a **clique** bother you? Just ignore them...

Man: Yes, you are right.
If some people do not want to be around me, why would I want to be around them.
Cliques do not bother me anymore.

Narrator: The woman clicks her pen.

Man: Okay, clicks annoy me!
