

# "Which Appetizer?"

Sight Word #281 appetizer

What do you want as an **appetizer**?

I am anxious to hear your reply, all right.

If you do not speak up,  
I will *prepare (make)* you something  
to give you anxiety  
and a pain in your abdomen.

The first **appetizer** will be a banana  
in a shoe.

The second **appetizer** will be a sock  
wrapped in a banana peel.

The last *appetizer* will be a little  
slice of pizza.

Which *appetizer* do you prefer?
