

"Oh No, a Bureau!" Sight Word #296 bureau

My friend works for the FBI  
(Federal **Bureau** of Investigation).

This part of the government sometimes  
wastes money.

This **bureau** (collects and shares  
information) did more than protect the  
American people and stop crime.

The *bureau* bought *bureaus* (a *bureau* is  
also furniture [a chest with drawers]).

Someone should look into this bizarre  
behavior by the *bureau*.

I called the Better Business **Bureau** (an organization  
that provides information about businesses [reviews, complaints and ratings]),  
and they said the US government likes to  
spend dollars and Euros (short for  
European). Why Euros...because it rhymes  
with **bureaus**!
