

"To Complain Is to Be Weak"

Sight Word #314 complain

A man spoke to a committee,
"The art of **complaining** is a lost art.
A person must **complain** to the right
person at the right time and for the right
reasons."

If I were to **complain** to you about too
much cinnamon in my oatmeal,
that would be a colossal mistake.

You neither added the spice
nor have the responsibility of removing it.

If you need to **complain**, do not whine.

Voice your concern like adult
to the right person
at the right time
to the right degree
for the right reasons.
