

"I Doubt It" Sight Word #323 doubt

It is good to **doubt**.

For example, would you believe someone if they said I have the most delicious tasting socks in the world?

Hmm, are you simply going to accept those words as being true or should you show **doubt**?

Of course, you should *doubt* it!

You know that some socks are smelly; therefore, how can they be delicious?

All right, why not take a bite of a sock and find out if it is delicious?

I **doubt** you will do it.
