

"A Funny Echo" Sight Word #325 echo

If your **echo** sounds dumb,
then you yelled something stupid.

Yell, "I love to eat delicious shoes!"

Guess what the **echo** will reply?

"I love to eat delicious shoes!"

An *echo* is similar to a mirror.

It is a reflection.

However, a mirror reflects the visual
while an *echo* reflects the audio.

Which do you like better,
an *echo* or a mirror?

Talk to your classmate, but do not yell as
the walls may cause an **echo**.
