**We shall resume  
after lunch.**

# Name That Part of Speech

**noun**    **pronoun**    **verb**    **adjective**

## Fellow Neurosurgeon

### Summary

I have extensively researched the science behind what goes on in our heads, trying to cure different diseases before they occur. I have an ongoing clinical trial on Alzheimer's Disease and my team and I are working harder than ever to cure this miraculous disease. I was an intern at the Mayo Clinic from 2002-2004 and my residency at the Mayo Clinic from 2004-2009. I have always dreamed about saving lives and making a change in medicine. I have experimented and successfully treated many different patients with aneurysms using extremely small clips. I am a fast thinker with more than 11 years of experience in the medical field. I adapt to new ways of operating and I have exceptional knowledge on all things neuro. I have a compassionate bedside manner and I am caring when giving hard news to families. I am board certified and have extraordinary leadership and surgical skill.

### Skills

Make quick, well-thought solutions to save a patient even when under pressure

Open to new procedures

Easily get along with all my peers and co-workers

Medical research

Epilepsy surgery

Clinical research

Diagnostics

Family education

Follow-up care

Pre-operative vital checks

ABS board certified

Catheter insertion and removal

Intravenous therapy comprehension

His **resume** is  
impressive, but...
