

*A Time of Being* (1996) [9:22]

for mixed chorus, percussion, and electroacoustic accompaniment  
music and text by Scott A. Wyatt

Today, we are faced with circumstances that remind us of our mortality and the brevity of our existence. The horrific act that occurred in Oklahoma City on April 19, 1995 was one of too many acts against humankind, an act against ourselves. In this period when violence and self-interest are expanding so significantly, it is time for each individual to re-evaluate his or her role in life and within our society. *A Time of Being* is dedicated to the memory of those who perished on that day in Oklahoma. -SAW

Now and past - time endures  
as the windows of life pass,  
and the passages of time  
go beyond our own.

The seeds of time  
we face for a moment -  
through actions and dreams  
and our tears and laughter.

Despite our strengths and weaknesses -  
the realities endure.  
We are but an instance  
in the millennia of time.

So magnificent lies the present  
among the rapture and pain.  
Ours is a time of being -  
often fulfilled, though some denied.

Guard well within yourselves  
the memories of the past -  
for insights of days foregone  
enlighten the times we live.

Beyond the substance of a dream  
lies the power of tomorrow -  
as it forever changes  
the mark of existence.

The seeds of time  
we face for a moment.  
May compassion and conscience  
be the remnants of our life.

Scott Wyatt, Professor Emeritus of Music Composition, has actively served as a faculty member of the University of Illinois School of Music teaching music composition, music theory, and electroacoustic music, as well as serving as director of the University of Illinois Experimental Music Studios for 40 years. He retired from this position in May 2016, yet remains a consultant to the Experimental Music Studios. As a composer of concert art music, he has composed works for theatre, voice, acoustic instruments, small and large ensembles, orchestra, electroacoustic music, and music for a variety of media including modern dance, documentary film, radio, television, and large scale laser presentations. Among other honors that he has received, Wyatt was one of the winners of the International Society for Contemporary Music National Composers Competition of 1978, the National Flute Association's 1979 Composition Competition, the 1979 Concorso Internazionale Luigi Russolo Composition Competition

in Italy, the 1984 International Confederation of Electro-Acoustic Music GRAND PRIZE at the 12th annual International Electro-Acoustic Music Competition in Bourges, France, and a finalist in the 1989 Bourges Competition. He was the 1990 recipient of an Arnold Beckman Research Award for the development of digital timescaling applications, and among others, several 1996-2011 grants for the development of a specific compositional and live performance methodology for eight-channel sound diffusion. Professor Wyatt also received a 1991 Illinois Arts Council finalist award, several FAA College special projects faculty award grants for digital image processing, a 1994 Educational Technologies Assistance Grant, and several recent FAA College special projects grants in support of course development. In 1997, he was awarded the UIUC College of Fine and Applied Arts Outstanding Faculty Award, and in 1998 he was appointed as an Associate in the UIUC Center for Advanced Study, one of the highest honors the University of Illinois bestows upon its faculty. Professor Wyatt also served as an invited member of the international jury for the 2000 Bourges International Electroacoustic Music Competition in Bourges, France. His current research involves the development and application of positional three-dimensional audio imaging for multi-channel audio. In 2008, he received a Fine and Applied Arts Creative Research Award for the collaborative research/composition/performance of Risky Business: a tribute to Nikola Tesla, composition for electroacoustic music with live Continuum performance and two giant Tesla Coils. Most recently, Scott Wyatt was guest composer at Ball State University, the University of Chicago, the University of Cincinnati College Conservatory of Music, IUPUI (Indiana University Purdue University Indianapolis), Indiana University Jacobs School of Music, the University of Oregon School of Music, Roosevelt University, and the University of West Virginia School of Music. Among many other performances, his compositions were also selected for performances at the 2008-2016 national conferences of the Society for Electro-Acoustic Music in the United States (SEAMUS). He served as president of SEAMUS from 1989 until 1996, and he remained on its Board of Directors, while also continuing to serve as director, engineer, and producer of the Music from SEAMUS compact disc recording series through 2016. His compositions are recorded on CAPSTONE, CENTAUR, GMEB Cultures Electroniques Series, Library of Congress, MARK, OFFICE, Music from SEAMUS, UBRES, and VERIATZA recordings.
