

Privacy Policy

This privacy policy includes the details about the access, collection and transmission of information in the Radio MARIA World Family application.

As a user, we also do not like to give personal information and we do not want our information to be collected without knowing what they will do with that data.

The Radio MARIA World Family application does not access, collect or transmit your personal or device information.

The use and interactions in the Radio MARIA World Family application do not access personal information. As an example, when the Radio MARIA World Family application, while active, will stop when there is an incoming or outgoing call and will resume when the call ends. This action does not access, collect or transmit personal or device information.

In some cases the Radio MARIA World Family application can communicate directly with a third-party server to obtain data that is displayed in the application (artist images, song titles). When this happens no personal or device information is transmitted.

Advertising Banner Privacy Policy

Banner or interstitial advertisements can be displayed in the Radio MARIA World Family application. When this happens, no personal or device information is transmitted.
