

# Research summary and debunk regarding the existence of "SARS-CoV-2" and "COVID-19"

johnblaid <sup>(51)</sup> ▾ (/@johnblaid) en #health (/trending/health) • hace 9 meses (edited)

Updated: 2021-04-05

In this article I present information that refutes the existence of the SARS-CoV-2 "virus" but it also include information that challenge all alleged "viruses". I don't expect people to go through it all because this has taken

me many months to research. I will continue to update this article as my research continues so I would recommend people to bookmark it.

**Note 1: I am not saying that nobody has died or fallen ill, what I am saying is that the CAUSE is NOT the "virus".**

**Note 2: I am fully aware of articles claiming isolation but none of those articles have done an isolation according to the definition(the separation from everything else). The problems of those claims are being discussed more in detail in the research material below by various doctors, scientists and virologists.**

## "COVID19 PCR Tests are Scientifically Meaningless"

Responses from Study Authors to the Question: Do your electron micrographs show the purified virus?

Study	Replying Author	Answer	Date of Answer
Sharon R. Lewin et al. Isolation and rapid sharing of the 2019 novel coronavirus (SARS - CoV - 2) from the first patient diagnosed with COVID - 19 in Australia, <i>The Medical Journal of Australia</i> , June 2020, pp. 459-462	Jason A. Roberts and Julian Druce	"The nucleic acid extraction was performed on isolate material recovered from infected cells. This material was not centrifuged, so was <b>not purified</b> through sucrose gradient to have a density band as such. The EM images were obtained directly from cell culture material."	October 5, 2020
Leo L. M. Poon; Malik Peiris. Emergence of a novel human coronavirus threatening human health, <i>Nature Medicine</i> , March 2020	Malik Peiris	"The image is the virus budding from an infected cell. It is <b>not purified</b> virus."	May 12, 2020
Myung-Guk Han et al. Identification of Coronavirus Isolated from a Patient in Korea with COVID-19, <i>Osong Public Health and Research Perspectives</i> , February 2020	Myung-Guk Han	"We could not estimate the degree of purification because <b>we do not purify</b> and concentrate the virus cultured in cells."	May 6, 2020
Wan Beom Park et al. Virus Isolation from the First Patient with SARS-CoV-2 in Korea, <i>Journal of Korean Medical Science</i> , February 24, 2020	Wan Beom Park	"We <b>did not</b> obtain an electron micrograph showing the <b>degree of purification</b> ."	March 19, 2020
Na Zhu et al. A Novel Coronavirus from Patients with Pneumonia in China, 2019, <i>New England Journal of Medicine</i> , February 20, 2020	Wenjie Tan	"[We show] an image of sedimented virus particles, <b>not purified ones</b> ."	March 18, 2020

<https://truthseeker.se/the-virus-misconception-part-2-the-beginning-and-end-of-the-corona-crisis-by-dr-stefan-lanka/>

Prof Karin Mölling, a leading virologist in the area of cellular particles grouped under the description “endogenous viruses”, also described as harmless, incomplete or defective viruses, considered the measures taken during the corona crisis as unjustified. She showed in her publications and even in a book<sup>27</sup> that half of the human genome, in other words, half of the sequences constituting our chromosomes originate from inactive and defective viruses.

What she does not know, or maybe she is concealing it, is the fact that human metabolism constantly generates a huge amount of RNA genetic sequences of many types and compositions that do not show up in form of DNA sequences in the chromosomes. This fact alone questions any claims concerning the existence of all RNA viruses, such as the corona viruses, Ebola viruses, HIV, the measles virus and the SARS viruses.

"Virologists" - by Dr Stefan Lanka

<https://truthseeker.se/wissenschaftplus-virologists/>

Excerpt:

## Conclusion

It is now necessary to end the Corona crisis and turn it into an opportunity for all to make these clear, easily comprehensible and verifiable refutations of virology public and effective. These refutations become effective, for example, when appropriate legal remedies are used against virologists in the judiciary and the results are made public. We will inform you via our science-plus mailing list if we have to report results that are ready for decision.

In my name, I guarantee that anyone who would like to check these statements on any "disease-causing virus" will come to exactly the same conclusions if they are able to speak English and have read the methods. Precautionary note: As long as the corona crisis continues, my colleagues and I only answer inquiries regarding alleged so-called corona and measles viruses. For inquiries about all other "viruses" during the Corona period, I refer to the articles that have been published in the WissenscheiktivenPlus magazine since 2003.

Please keep in mind that the highest court-confirmed judgment in the measles virus trial has removed the basis of the entirety of virology. Not only that, it has been judicially established and is therefore part of German case law that the publication of the central method of virology on June 1, 1954, in which the unintentional and unnoticed killing of cells in the laboratory used as evidence of the existence of disease-causing viruses, in the year 2016, no longer proves the existence of a virus!

"The Misinterpretation of Antibodies"

<https://truthseeker.se/the-misinterpretation-of-antibodies/>

"Abstruse Antibody Test"

<https://truthseeker.se/abstruse-antibody-test/>

Excerpt:

## **A positive antibody test could mean infected or cured, supposedly protected, or not. One simply does not know.**

The Dean of Drexel University College of Medicine (5), talks about how antibody tests work and what some of the challenges in developing the tests are.

**Cairns:** *"The big question is: Does a positive response for the antibodies mean that person is actively infected, or that they have been infected in the past?..."*

**The measured values can, must and may therefore be interpreted individually and ultimately, on closer inspection, make no sense at all and do not allow any conclusions to be drawn about immunity or protection.**

The presence of the so-called antibodies is rather a reaction of the body to poisoning. This also explains why so-called adjuvants, especially toxic aluminum compounds or other substances, are added to vaccines. These substances and not the supposedly "attenuated virus" produce the reaction measurable with the test.

## **What is the function of the globulins of the TH helper cells (antibodies)?**

Toxins [adjuvants] added to the body create holes in the tissue, which are sealed by the proteins of the helper cells dissolved in the acidic environment of the blood.

This says it all and explains the whole problem and the nonsense of titre measurement.

The task of the "antibodies is therefore to form sealing substances (globulins). Small proteins, which are spread out in the acidic environment and form the repair mass for the injured tissue with their hydrogen sulfide groups, in which energy is stored.

## "The Role of Extracellular Vesicles as Allies of HIV,HCV and SARS Viruses"

The remarkable resemblance between EVs and viruses has caused quite a few problems in the studies focused on the analysis of EVs released during viral infections. Nowadays, it is an almost impossible mission to separate EVs and viruses by means of canonical vesicle isolation methods, such as differential ultracentrifugation, because they are frequently co-pelleted due to their similar dimension [56,57]. To overcome this problem, different studies have proposed the separation of EVs from virus particles by exploiting their different migration velocity in a density gradient or using the presence of specific markers that distinguish viruses from EVs [56,58,59]. However, to date, a reliable method that can actually guarantee a complete separation does not exist.

## "QUESTIONING COVID

Clinicians, Researchers, & Health Experts from Around the World

Interrogating the Mainstream Narrative Around the Pandemic"

<https://questioningcovid.com/>

---

Alternative theory of why some, NOT all, are falling ill and die under the false label of "COVID-19" showing symptoms of blood clots and hypoxia. Air pollution is one huge environmental factor which plays a part of the discussion that is currently not being discussed. The reason for that to me is obvious, the "virus" is partly used as the cover story for environmental pollution, this is how big corp get away with it.

Lets start with Wuhan: "In 2015, a documentary about air pollution in China, titled "Under the Dome," received 100 million views by Chinese netizens within 48 hours. In the film, a 6-year-old girl told the interviewer she doesn't know what a white cloud looks like. The film director raised the question of China's development model and was forced to cut that part out for fear of it not passing the censor. Government censors then quickly shut the film down after its popularity proved it touched a nerve of the country." <https://thefederalist.com/2019/07/09/communist-china-attempts-hide-yet-another-mass-protest-authoritarian-rule/>

"Air pollution is linked to an increased risk of developing an irregular heartbeat -- a risk factor for stroke -- and blood clots in the lung, finds a large study. The evidence suggests that high levels of certain air pollutants are associated with a higher risk of cardiovascular problems, but exactly how this association works has not been clarified." <https://www.sciencedaily.com/releases/2014/06/140604203052.htm>

"Small amounts of cyanide bind to the ferrous ion on the hemoglobin molecule, which does not interfere with oxygen binding. However, cyanosis can occur as a preterminal event if a large amount of cyanide exposure occurs. Hypoxia in the presence of adequate oxygen occurs due to the inability of mitochondria to use oxygen as the terminal electron acceptor in the electron transport chain."
