FOIs reveal that health/science institutions have no record of any “virus” having been

Recent Posts

isolated/purified. Because virology isn’t a science.

November 7, 2021

The reason for these requests:

Without the crucial step of isolation/purification having been performed (from many patients, followed by characterization, sequencing and controlled experiments), there is no way to claim scientifically that an alleged disease-spreading “virus” actually exists.

Without this step having been performed and followed by characterization, sequencing and controlled experiments, all claims of an alleged “virus” are nothing but wild speculation backed only by fraudulent science, fraudulent tests and fraud-based diagnoses.

“COVID-19 virus” aka “SARS-COV-2”

For “COVID-19 virus” FOIs, click here:

[FOIs reveal that health/science institutions around the world \(131 and counting!\) have no record of SARS-COV-2 isolation/purification, anywhere, ever](#)

“SARS virus” / Common Cold “virus”

FOI response from the **CDC** dated December 30, 2020 re the alleged 2003 “SARS-COV-1” and all “common cold coronaviruses” – the CDC has no record of any having been isolated:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2020/12/CDC-isolation-FOI-reply-any-coronavirus.pdf>

New Zealand’s Ministry of Health obviously has no record describing the isolation of the alleged 2003 “SARS-COV” or any “common cold coronavirus” by anyone, anywhere, ever, but wasn’t willing to admit such. Instead they falsely implied that Michael S. had asked for things he had not asked for.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Public Health Service

Centers for Disease Control
and Prevention (CDC)
Atlanta GA 30333
June 7, 2021

Ms. Christine Massey
21 Keystone Avenue,
Toronto, M4C 1G9
Via email: cmssyc@gmail.com

Dear Ms. Massey:

This letter is in response to your Centers for Disease Control and Prevention and Agency for Toxic Substances and Disease Registry (CDC/ATSDR) Freedom of Information Act (FOIA) request of March 1, 2021, for:

All studies and/or reports in the possession, custody or control of the Centers for Disease Control and Prevention (CDC) and/or the Agency for Toxic Substances and Disease Registry (ATSDR) describing the purification of any "virus" addressed by any vaccine on either the childhood or adult U.S. "immunization schedule" (via maceration, filtration and use of an ultracentrifuge; also referred to at times by some people as "isolation"), directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

A search of our records failed to reveal any documents pertaining to your request. Specifically, the National Center for Immunization and Respiratory Diseases apprises that CDC does not purify or isolate any "virus" addressed by any vaccine on either the childhood or adult U.S. "immunization schedule" virus in the manner the requester describes.

You may contact our FOIA Public Liaison at 770-488-6277 for any further assistance and to discuss any aspect of your request. Additionally, you may contact the Office of Government Information Services (OGIS) at the National Archives and Records Administration to inquire about the FOIA mediation services they offer. The contact information for OGIS is as follows: Office of Government Information Services, National Archives and Records Administration, 8601 Adelphi Road-OGIS, College Park, Maryland 20740-6001, e-mail at ogis@nara.gov; telephone at 202-741-5770; toll free at 1-877-684-6448; or facsimile at 202-741-5769.

If you are not satisfied with the response to this request, you may administratively appeal by writing to the Deputy Agency Chief FOIA Officer, Office of the Assistant Secretary for Public Affairs, U.S. Department of Health and Human Services, Hubert H. Humphrey Building, 200 Independence Avenue, Suite 729H, Washington, D.C. 20201. You may also transmit your appeal via email to FOIARequest@psc.hhs.gov. Please mark both your appeal letter and envelope "FOIA Appeal."

Australia's Commonwealth Scientific and Industrial Research

Organisation – CSIRO (“Australia’s national science research agency”) also admits to having no record describing the isolation of ANY virus on Australia’s national “immunization” schedule, by anyone, anywhere, ever:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/02/CSIRO-Immunisation-Schedule-Response-Redacted.pdf>]

LEGAL
www.csiro.au

GPO Box 1700 Canberra ACT 2601
Telephone (02) 6276 6431 • ABN 41 687 119 230
Email: foi@csiro.au

4 February 2021

Our ref: FOI2021/2

Decision
Despite an extensive search, CSIRO has been unable to identify any document relevant to your request. I must therefore refuse access, pursuant to section 24A of the FOI Act.

"All records in the possession, custody or control of CSIRO describing the isolation of any Viruses on the [Australia's National Immunisation Program Schedule](#), directly from a sample taken from a human patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; lung cells from a lung cancer patient). Please note that I am using "isolation" in the every-day sense of the word: the act of separating a thing(s) from everything else. I am not requesting records where "isolation of virus" refers instead to:

- the culturing of something, or
- the performance of an amplification test (i.e. a PCR test), or
- the sequencing of something.

Please also note that my request is not limited to records that were authored by CSIRO or that pertain to work done by CSIRO. My request includes any sort of record, for example (but not limited to) any published peer-reviewed study that CSIRO has downloaded or printed.

If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each record with certainty (i.e. title, author(s), date, journal, where the public may access it).

New Zealand's Ministry of Health admits to having no records describing isolation of ANY virus listed on NZ's Immunisation Schedule: https://www.fluoridefreepeel.ca/wp-content/uploads/2020/11/Ministry-of-Health-Immunisation-Schedule-Virus-Isolation-Request_Response-2-scrubbed.pdf;

NZ's crown research institute, the Institute of Environmental Science and Research also admits to having no records describing isolation of ANY virus listed on NZ's Immunisation Schedule, and equates "isolation" with culturing: <https://www.fluoridefreepeel.ca/wp-content/uploads/2021/01/NZ-ESR-Isolation-of-ANY-VIRUS-OIA-Request-Response.pdf>

Our response to your request:

ESR does not culture (isolate) varicella zoster virus, measles, mumps or rubella as the PCR test adequately diagnoses such infections and there is no clinical or surveillance need.

Rabies virus, Human Papilloma Virus, Hepatitis B and Rotavirus can only be cultured (isolated) in specialised culture systems which we do not have.

We have an active surveillance programme to find and possibly isolate any polioviruses in the population. We have not found any wildtype poliovirus by means of isolation for many years in New Zealand.

The only virus we frequently culture which is on the New Zealand Immunisation Schedule is Influenza A and B virus. We take a nasopharyngeal swab directly from a human patient, and this sample is NOT combined with any other source of genetic material before we inoculate permissive mammalian cell lines. Growth is seen after 7-10 days.

The records we have on the isolation of viruses on the New Zealand Immunisation Schedule are patient reports and our standing operating procedure. We have withheld patient records in order to protect the privacy of natural persons pursuant to section 9(2)(a) of the Act. We

New Zealand's crown research institute, the Institute of Environmental Science and Research once again equates "isolation" with culturing and

this time admits to having no record re isolation of “SARS-COV-1” or any “virus” on NZ’s Immunisation Schedule and simply “ignored” a query re isolation of any “common cold coronaviruses”. I think we know the answer though, don’t we?

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/01/ESR-FOI-reply-schedule-SARS-common-cold.pdf>

Brighton and Hove City Council have confirmed for Yvonne Hobs that they have no records:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/11/Brighton-childhood-immunization-PACKAGE-redacted.pdf>

Nottingham City Council/Public Health have confirmed for Yvonne Hobs that they have no records:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/11/Nottingham-County-Council-PACKAGE-redacted.pdf>

“Ebola virus”

March 15, 2021 CDC FOIA response: no records of any “Ebola virus” isolation/purification by anyone, anywhere, ever:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/03/CDC-Ebola-FOIA-request-response-No-Records.pdf>

Brighton and Hove City Council have confirmed for Yvonne Hobs that they have no records:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/11/Brighton-Ebola-PACKAGE-redacted.pdf>

Nottingham City Council/Public Health have confirmed for Yvonne Hobs that they have no records:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/11/Nottingham-County-Council-PACKAGE-redacted.pdf>

Hepatitis B or C “virus”

Peterborough Public Health and (outgoing) Medical Officer Dr. Rosana Salvaterra confirm they have no records describing purification of the alleged **"SARS-COV-2"**, **"HIV"** aka **"human immunodeficiency virus"**, **"Hep B virus"** or **"Hep C virus"** from any patient sample on the planet, by anyone, anywhere. Which means they have zero proof of their existence.

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/08/Peterborough-PH-HIV-Hep-B-Hep-C-SARSCOV2-package-redacted.pdf>

"HIV"

And... **March 23, 2021 CDC** admitted in a FOIA response that they have no record of any **"HIV"** purified/isolated from a patient sample, by anyone, anywhere, ever.

[Please note: you might notice a strange reference to "influenza" in my FOIA request, however this detail did not effect the request in any way because the reference was in the context of me giving any example of the sort of record I was looking for. The reference was the result of sloppy editing on my part ... I had recycled my earlier FOI request to the CDC re purification of any "influenza virus", and neglected to edit that part when adapting the text for my HIV request.]

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/03/FOIA-request-reply-CDC-HIV-purification-March-2021.pdf>

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Public Health Service

Centers for Disease Control
and Prevention (CDC)
Atlanta GA 30333
March 23, 2021

Ms. Christine Massey

Via email: cmssyc@gmail.com

Dear Ms. Massey:

This letter is in response to your attached Centers for Disease Control and Prevention and Agency for Toxic Substances and Disease Registry (CDC/ATSDR) Freedom of Information Act (FOIA) request of March 1, 2021.

A search of our records failed to reveal any documents pertaining to your request. Specifically, the National Center for HIV/AIDS, Viral Hepatitis, STD, and TB Prevention (NCHHSTP) searched and found no records.

You may contact our FOIA Public Liaison at 770-488-6277 for any further assistance and to discuss any aspect of your request. Additionally, you may contact the Office of Government Information Services (OGIS) at the National Archives and Records Administration to inquire about the FOIA mediation services they offer. The contact information for OGIS is as follows: Office of Government Information Services, National Archives and Records Administration, 8601 Adelphi Road-OGIS, College Park, Maryland 20740-6001, e-mail at ogis@nara.gov; telephone at 202-741-5770; toll free at 1-877-684-6448; or facsimile at 202-741-5769.

If you are not satisfied with the response to this request, you may administratively appeal by writing to the Deputy Agency Chief FOIA Officer, Office of the Assistant Secretary for Public Affairs, U.S. Department of Health and Human Services, Hubert H. Humphrey Building, 200 Independence Avenue, Suite 729H, Washington, D.C. 20201. You may also transmit your appeal via email to FOIARequest@psc.hhs.gov. Please mark both your appeal letter and envelope "FOIA Appeal." Your appeal must be postmarked or electronically transmitted by June 21, 2021.

Sincerely,

Roger Andoh
CDC/ATSDR FOIA Officer

Our file: PHAC-A-2021-000455 / CS

Christine Massey

Peterborough, Ontario

Dear Christine Massey:

This is in response to your request made under the *Access to Information Act* (the Act) for the following information:

All studies and/or reports in the possession, custody or control of PHAC describing the purification (i.e. via filtration, ultracentrifugation and chromatography) of any "HPV virus" aka "Human Papillomavirus", directly from a sample taken from a diseased human where the sample was not first combined with any other source of genetic material (i.e. a cell line; fetal bovine serum). Clarification: I am not requesting studies/reports where researchers failed to purify the suspected "virus" and instead - cultured something, and/or - performed an amplification test (i.e. PCR), and/or - fabricated a "genome", and/or - produced electron microscopy images of unpurified things. I am aware that according to virus theory a "virus" requires host cells in order to replicate. I am not requesting records describing the replication of a "virus" without host cells or a suspected "virus" floating in a vacuum, or private patient data; merely records that describe purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things). This includes any study/report as above, authored by anyone, anywhere. I require citations for any such records that are publicly available and thus not provided.

Having completed a thorough search, we regret to inform you that we were unable to locate any records responsive to your request. The subject matter expert provided the following explanation: The National Microbiology Laboratory has never done any work on purification of HPV viral particles from any kind of specimen. There are reports in the literature of methods of purification of viral-like-particles (VLP) in connection with vaccine preparation or antigen purification for serology tests, but it is not NML's work and the requester should look at the published literature.

#22-00036-FOIA

Please note: this request is very similar to another request that I submitted on March 1, 2021 (21-0978-FOIA) where I had specified purification via maceration, filtration and use of an ultracentrifuge and received a "no records" response. The difference with this new request is that it does not specify maceration, filtration and use of an ultracentrifuge; it only mentions filtration, ultracentrifugation and chromatography by way of an example.

Description of Requested Records:

All studies and/or reports in the possession, custody or control of the Centers for Disease Control and Prevention (CDC) and/or the Agency for Toxic Substances and Disease Registry (ATSDR) describing the purification (i.e. via filtration, ultracentrifugation and chromatography) of any "influenza virus" said to have caused disease in humans, directly from a sample taken from a diseased human, where the patient sample was said first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Please note that I am not requesting studies/reports where researchers failed to purify the suspected "virus" and instead:

- cultured something, and/or
- performed an amplification test (i.e. PCR), and/or
- fabricated a "genome", and/or
- produced electron microscopy images of unpurified things.

For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and I am not requesting records describing the replication of a "virus" without host cells.

Further, I am not requesting records that describe a suspected "virus" floating in a vacuum; I am simply requesting records that describe its purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).

Brighton and Hove City Council have confirmed for Yvonne Hobs that they have no records:

Response to your request for official information

Thank you for your request under the Official Information Act 1982 (the Act) to the Ministry of Health (the Ministry) 13 October 2021 for:

"All studies and/or reports in the possession, custody or control of the NZ Ministry of Health describing the purification of any "Marburgviruses" (for example: via filtration, ultracentrifugation and chromatography), directly from a sample taken from a diseased human where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum)."

The Ministry does not conduct scientific research or studies. Please refer to online scientific studies for further information: <https://pubmed.ncbi.nlm.nih.gov/>

As such, your request is refused under section 18(g)(i) of the Act as the information requested is not held by the Ministry and there are no grounds for believing it is held by another agency subject to the Act.

For more information regarding COVID-19 please refer to the Ministry of Health website: <https://www.health.govt.nz/our-work/diseases-and-conditions/covid-19-novel-coronavirus>

Under section 28(3) of the Act you have the right to ask the Ombudsman to review any decisions made under this request. The Ombudsman may be contacted by email at: info@ombudsman.parliament.nz or by calling 0800 802 602.

Nāku noa, nā

Nick Allan
Manager, OIA Services
Office of the Director-General

October 22, 2021:

New Zealand's University of Otago confirmed that they have no record of the alleged "Marburg virus" having been purified from any human or non-human primate sample, by anyone, anywhere on the planet:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/10/University-of-Otago-Marburg-redacted-2021-10-22-.pdf>

22 October 2021

[REDACTED]

[REDACTED]

I refer to your request for information under the Official Information Act (Act) dated 13 October 2021.

You have requested "All studies and/or reports in the possession, custody or control of the The University of Otago describing the **purification** of any "**Marburgviruses**" (for example: via filtration, ultracentrifugation and chromatography), directly from a sample taken from a diseased human where the patient sample was not first combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum)."

I can confirm that the University holds no records which fall within scope of your request. Accordingly, we decline your request pursuant to section 18(g) of the Act on the basis that the information requested is not held by the University.

If you are not satisfied with our response to your information request, section 28(3) of the Act provides you with the right to ask an Ombudsman to investigate and review this response. However, we would welcome the opportunity to discuss any concerns with you first.

Yours sincerely

A handwritten signature in black ink, appearing to read 'Kelsey Kennard'.

Christine Massey
[Redacted]
Peterborough, Ontario
[Redacted]

Dear Christine Massey:

This is in response to your request made under the *Access to Information Act* (the Act) for the following information:

All studies and/or reports in the possession, custody or control of PHAC describing the purification (i.e. via filtration, ultracentrifugation and chromatography) of any "Marburg virus", directly from a sample taken from a diseased human or non-human primate, where the sample was not first combined with any other source of genetic material (i.e. a cell line; fetal bovine serum). Clarification: I am not requesting studies/reports where researchers failed to purify the suspected "virus" and instead: - cultured something, and/or - performed an amplification test (i.e. PCR), and/or - fabricated a "genome", and/or - produced electron microscopy images of unpurified things. I am aware that according to virus theory a "virus" requires host cells in order to replicate. I am not requesting records describing the replication of a "virus" without host cells or a suspected "virus" floating in a vacuum, or private patient data; merely records that describe purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things). This includes any study/report as above, authored by anyone, anywhere. I require citations for any such records that are publicly available and thus not provided.

Having completed a thorough search, we regret to inform you that we were unable to locate any records responsive to your request. Our subject matter expert has provided the following explanation: The National Microbiology Laboratory does not perform purification on Marburg virus as described in this request. Our methods are "classical" virological techniques which sometimes utilize virus isolation from clinical specimens in mammalian cell culture for diagnostic and research purposes. Given that Canada has not documented an imported case caused by a high consequence pathogen, like Marburg virus as an example, we have only isolated these types of viruses on very rare occasions as a part of our function as a WHO reference centre for viral hemorrhagic diseases in response to outbreaks."

"isolation in culture" = classical unscientific oxymoron + disillusion

.../2

November 8, 2021:

Australia's Commonwealth Scientific and Industrial Research Organisation – CSIRO ("Australia's national science research agency") advised the requester that "searches were conducted by, and consultation undertaken with, the Australian Centre for Disease Preparedness ... and other relevant staff", but "despite an extensive search, CSIRO has been unable to identify any document relevant to" purification of any "**Marburgviruses**" from any patient sample, by anyone, anywhere, ever:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/11/AUST-CSIRO-Marburg-2021-11-08-Redacted.pdf>

Decision maker

I am an authorised decision maker under section 23 of the FOI Act. This letter sets out my decision and reasons for the decision in relation to your request.

Decision

Despite an extensive search, CSIRO has been unable to identify any document relevant to your request. I must therefore refuse access, pursuant to section 24A of the FOI Act on the basis that the documents sought do not exist or cannot be found.

Searches conducted

Searches were conducted by, and consultation undertaken with, the Australian Centre for Disease Preparedness (formerly the Australian Animal Health Laboratory) and other relevant staff and it was confirmed that CSIRO does not hold any documents relevant to the scope of your request.

November 9, 2021:

New Zealand's University of Auckland failed to provide or cite even 1 record describing purification of any "**Marburgvirus**" from any patient sample, by anyone, anywhere, ever:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/11/NZ-Auckland-University-Marburg-2021-11-09-Redacted.pdf>

Please also note that my request is **not limited** to records that were authored by The University of Auckland or that pertain to work done at/by The University of Auckland. Rather, my request includes any record matching the above description, for example (but not limited to): any published peer-reviewed study authored by anyone, anywhere, ever that has been downloaded or printed by The University of Auckland and relied on as evidence of a disease-causing "virus".

Please note, I am requesting all records regardless if the records are *publicly* available or *privately* available. If you claim the records are publicly available, please provide at least 1 link to the publicly available record to validate your claim.

If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

Re: OIA Request: Marburgviruses purification by any method

I refer to your official information request of 13 October 2021. The University has not done any work relating to the "purification" of Marburg virus, and so does not hold any documents related to such work. This constitutes a refusal of your request under section 18(g) of the Official Information Act 1982 (OIA).

Records held by the University (if any) related to work on the "purification" of Marburg virus by other entities would be library material, and so not constitute "official information" under section 2(1)(e)(i) of the OIA.

You have the right to make a complaint to an Ombudsman if you are dissatisfied with this response.

Yours sincerely,

Rebecca Ewert

General Counsel

University of Auckland

November 9, 2021:

New Zealand's Institute of Environmental Science and Research (ESR) admits that they have no record describing purification of any "**Marburgvirus**" from a patient sample, by anyone on the planet, anywhere, ever...

and seems to take issue with the requester’s definition of “purification” (“separation of the alleged virus from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things”) – LOL.

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/11/NZ-ESR-Marburg-2021-11-09-Redacted.pdf>

9 November 2021

Official Information Act Request: Purification of Marburg Viruses

On 13 October 2021 you sent a request for information under the Official Information Act 1982 to ESR as follows:

“All studies and/or reports in the possession, custody or control of the ESR describing the purification of any “Marburgviruses” (for example: via filtration, ultracentrifugation and chromatography), directly from a sample taken from a diseased human where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).

Please note that I am not requesting studies/reports where researchers failed to purify the suspected “virus” and instead:

Our response to your request:

Using the definition of ‘purification’ that you refer to in your request, ESR does not hold any information related to the ‘purification’ of Marburg viruses.

“Measles virus”

June 7, 2021:

CDC admitted they have no record of “measles virus” purification from a patient sample via maceration, filtration and use of an ultracentrifuge, by anyone, anywhere, ever:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/06/CDC-FOIA-request-response-no-records-re-measles-virus-purification.pdf>

Brighton and Hove City Council have confirmed for Yvonne Hobs that they have no records:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/11/Brighton-Measles-PACKAGE-redacted.pdf>

Nottingham City Council/Public Health have confirmed for Yvonne Hobs that they have no records:

<https://www.fluoridefreepeel.ca/wp->

[content/uploads/2021/11/Nottingham-County-Council-PACKAGE-redacted.pdf](https://www.fluoridefreepeel.ca/wp-content/uploads/2021/11/Nottingham-County-Council-PACKAGE-redacted.pdf)

“MERS virus”

June 10, 2021:

CDC admits they have no record of any “**MERS virus**” purified from any patient sample via maceration, filtration and use of an ultracentrifuge, by anyone, anywhere, ever:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/06/CDC-MERS-request-response-no-records.pdf>

Nottingham City Council/Public Health have confirmed for Yvonne Hobs that they have no records:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/11/Nottingham-County-Council-PACKAGE-redacted.pdf>

“Polio virus”

June 10, 2021: **CDC** admits they have no record of any “**polio virus**” purified from any patient sample via maceration, filtration and use of an ultracentrifuge, by anyone, anywhere, ever:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/06/CDC-FOIA-request-response-no-records-polio-virus-purification.pdf>

Brighton and Hove City Council have confirmed for Yvonne Hobs that they have no records:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/11/Brighton-Polio-PACKAGE-redacted.pdf>

Nottingham City Council/Public Health have confirmed for Yvonne Hobs that they have no records:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/11/Nottingham-County-Council-PACKAGE-redacted.pdf>

“West Nile virus”

September 1, 2021:

US Centers for Disease Control and Prevention confirms that a search of their records revealed no documents whatsoever pertaining to the isolation/purification of any "**West Nile virus**" from any patient sample on the planet, by anyone, anywhere:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/09/CDC-West-Nile-Request-package-redacted.pdf>

"XMRV"

CDC has no record of "**XMRV**" purification/isolation:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/04/XMRV-request-response.pdf>

"Zika virus"

March 19, 2021, U.S. CDC (Centers for Disease Control and Prevention) and the **Agency for Toxic Substances and Disease Registry** (ATSDR) admit they have no record of any "**Zika virus**" isolated/purified from a patient sample, by anyone, anywhere on the planet, ever:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/03/FOIA-request-response-CDC-re-Zika-isolation.pdf>

Brighton and Hove City Council have confirmed for Yvonne Hobs that they have no records:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/11/Brighton-Zika-PACKAGE-redacted.pdf>

Nottingham City Council/Public Health have confirmed for Yvonne Hobs that they have no records:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/11/Nottingham-County-Council-PACKAGE-redacted.pdf>

Gu?
