DEPARTMENT OF HEALTH AND HUMAN SERVICES

Public Health Service

Centers for Disease Control  
and Prevention (CDC)  
Atlanta GA 30333  
June 7, 2021

Ms. Christine Massey  
21 Keystone Avenue,  
Toronto, M4C 1G9  
Via email: [cmssyc@gmail.com](mailto:cmssyc@gmail.com)

Dear Ms. Massey:

This letter is in response to your Centers for Disease Control and Prevention and Agency for Toxic Substances and Disease Registry (CDC/ATSDR) Freedom of Information Act (FOIA) request of March 1, 2021, for:

*All studies and/or reports in the possession, custody or control of the Centers for Disease Control and Prevention (CDC) and/or the Agency for Toxic Substances and Disease Registry (ATSDR) describing the purification of any "virus" addressed by any vaccine on either the childhood or adult U.S. "immunization schedule" (via maceration, filtration and use of an ultracentrifuge; also referred to at times by some people as "isolation"), directly from a sample taken from a diseased human, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).*

A search of our records failed to reveal any documents pertaining to your request. Specifically, the National Center for Immunization and Respiratory Diseases apprises that CDC does not purify or isolate any "virus" addressed by any vaccine on either the childhood or adult U.S. "immunization schedule" virus in the manner the requester describes.

You may contact our FOIA Public Liaison at 770-488-6277 for any further assistance and to discuss any aspect of your request. Additionally, you may contact the Office of Government Information Services (OGIS) at the National Archives and Records Administration to inquire about the FOIA mediation services they offer. The contact information for OGIS is as follows: Office of Government Information Services, National Archives and Records Administration, 8601 Adelphi Road-OGIS, College Park, Maryland 20740-6001, e-mail at [ogis@nara.gov](mailto:ogis@nara.gov); telephone at 202-741-5770; toll free at 1-877-684-6448; or facsimile at 202-741-5769.

If you are not satisfied with the response to this request, you may administratively appeal by writing to the Deputy Agency Chief FOIA Officer, Office of the Assistant Secretary for Public Affairs, U.S. Department of Health and Human Services, Hubert H. Humphrey Building, 200 Independence Avenue, Suite 729H, Washington, D.C. 20201. You may also transmit your appeal via email to [FOIArequest@psc.hhs.gov](mailto:FOIArequest@psc.hhs.gov). Please mark both your appeal letter and envelope "FOIA Appeal."

**La Organización de Investigación Científica e Industrial de la Commonwealth de Australia - CSIRO** ("la agencia nacional de investigación científica de Australia") también admite no tener ningún registro que describa el aislamiento de CUALQUIER virus en el calendario nacional de "inmunización" de Australia, por parte de nadie, en cualquier lugar, nunca:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/02/CSIRO-Immunization-Schedule-Response-Redacted.pdf> ]

**LEGAL**  
www.csiro.au

GPO Box 1700 Canberra ACT 2601

Email: foi@csiro.au

4 February 2021

**Our ref: FOI2021/2**

**Decision**  
Despite an extensive search, CSIRO has been unable to identify any document relevant to your request. I must therefore refuse access, pursuant to section 24A of the FOI Act.

*"All records in the possession, custody or control of CSIRO describing the isolation of any Viruses on the Australia's National Immunisation Program Schedule, directly from a sample taken from a human patient, where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka vero cells; lung cells from a lung cancer patient). Please note that I am using "isolation" in the every-day sense of the word: the act of separating a thing(s) from everything else. I am not requesting records where "isolation of virus" refers instead to:*

- the culturing of something, or
- the performance of an amplification test (i.e. a PCR test), or
- the sequencing of something.

*Please also note that my request is not limited to records that were authored by CSIRO or that pertain to work done by CSIRO. My request includes any sort of record, for example (but not limited to) any published peer-reviewed study that CSIRO has downloaded or printed.*

*If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each record with certainty (i.e. title, author(s), date, journal, where the public may access it).*

**El Ministerio de Salud de Nueva Zelanda** admite no tener registros que describan el aislamiento de CUALQUIER virus incluido en el Programa de inmunización de Nueva Zelanda:

[https://www.fluoridfreepeel.ca/wp-content/uploads/2020/11/Ministry-of-Health-Immunisation-Schedule-Virus-Isolation-Request\\_Response-2-scrubbed.pdf](https://www.fluoridfreepeel.ca/wp-content/uploads/2020/11/Ministry-of-Health-Immunisation-Schedule-Virus-Isolation-Request_Response-2-scrubbed.pdf) ;

**El instituto de investigación de la corona de Nueva Zelanda, el Instituto de Ciencia e Investigación Ambiental,** también admite no tener registros que describan el aislamiento de CUALQUIER virus incluido en el Programa de Inmunización de Nueva Zelanda, y equipara el "aislamiento" con el cultivo: <https://www.fluoridfreepeel.ca/wp-content/uploads/2021/01/NZ-ESR-Isolation-of-ANY-VIRUS-OIA-Request-Response.pdf>

**Our response to your request:**

ESR does not culture (isolate) varicella zoster virus, measles, mumps or rubella as the PCR test adequately diagnoses such infections and there is no clinical or surveillance need.

Rabies virus, Human Papilloma Virus, Hepatitis B and Rotavirus can only be cultured (isolated) in specialised culture systems which we do not have.

We have an active surveillance programme to find and possibly isolate any polioviruses in the population. We have not found any wildtype poliovirus by means of isolation for many years in New Zealand.

The only virus we frequently culture which is on the New Zealand Immunisation Schedule is Influenza A and B virus. We take a nasopharyngeal swab directly from a human patient, and this sample is NOT combined with any other source of genetic material before we inoculate permissive mammalian cell lines. Growth is seen after 7-10 days.

The records we have on the isolation of viruses on the New Zealand Immunisation Schedule are patient reports and our standing operating procedure. We have withheld patient records in order to protect the privacy of natural persons pursuant to section 9(2)(a) of the Act. We

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Public Health Service

Centers for Disease Control  
and Prevention (CDC)  
Atlanta, GA 30333  
November 15, 2021

Ms. Christine Massey

Via email: cmassey@gmail.com

Dear Ms. Massey:

This letter is in response to your Centers for Disease Control and Prevention and Agency for Toxic Substances and Disease Registry (CDATSDR) Freedom of Information Act (FOIA) request of October 28, 2021, for:

**Description of Requested Records:**

[Please note: this request is very similar to another request that I submitted on March 1, 2021 (#23-00793-FOI) where I had specified purification via maceration, filtration and use of an ultracentrifuge and received a "no records" response. The difference with this new request is that it does not specify maceration, filtration and use of an ultracentrifuge; instead it mentions filtration, ultracentrifugation and chromatography by way of an example.]

All studies and/or reports in the possession, custody or control of the Centers for Disease Control and Prevention (CDC) and/or the Agency for Toxic Substances and Disease Registry (ATSDR) describing the purification of any "HIV" aka "human immunodeficiency virus", directly from a sample taken from an deceased human (with AIDS symptoms) where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells or any other cell line fetal bovine serum).

Please note that I am not requesting studies/reports where researchers failed to purify the suspected "virus" and instead:

- ⊗ cultured something, and/or
- ⊗ performed an amplification test (i.e. PCR), and/or
- ⊗ fabricated a "genome", and/or
- ⊗ produced electron microscopy images of unpurified things.

I am already aware that according to virus theory a "virus" requires host cells in order to replicate. I am not requesting records describing the replication of a "virus" without host cells, or records that describe a suspected "virus" floating in a vacuum, or private patient records.

I simply request records that describe purification of the alleged virus (separation from everything else in the patient sample as per standard laboratory practices for the purification of other very small things).

My request includes any study/report matching the above description, authored by anyone, anywhere.

If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each

one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

A search of our records failed to reveal any documents pertaining to your request.

You may contact our FOIA Public Liaison at 770-488-6277 for any further assistance and to discuss any aspect of your request. Additionally, you may contact the Office of Government Information Services (OGIS) at the National Archives and Records Administration to inquire about the FOIA mediation services they offer. The contact information for OGIS is as follows: Office of Government Information Services, National Archives and Records Administration, 8601 Adelphi Road-OGIS, College Park, Maryland 20740-6001, e-mail at ogis@nara.gov; telephone at 202-741-5770; toll free at 1-877-684-6448, or facsimile at 202-741-5769.

If you are not satisfied with the response to this request, you may administratively appeal to the Deputy Agency Chief FOIA Officer, Office of the Assistant Secretary for Public Affairs, U.S. Department of Health and Human Services, via the online portal at <https://requests.publiclink.hhs.gov/App/index.aspx>. Please mark both your appeal letter and envelope "FOIA Appeal." Your appeal must be electronically transmitted by February 13, 2022.

Sincerely,

Our file: PHAC-A-2021-000455 / CS

Christine Massey

Peterborough, Ontario

Dear Christine Massey:

This is in response to your request made under the *Access to Information Act* (the Act) for the following information:

All studies and/or reports in the possession, custody or control of PHAC describing the purification (i.e. via filtration, ultracentrifugation and chromatography) of any "HPV virus" aka "Human Papillomavirus", directly from a sample taken from a diseased human where the sample was not first combined with any other source of genetic material (i.e. a cell line; fetal bovine serum). Clarification: I am not requesting studies/reports where researchers failed to purify the suspected "virus" and instead - cultured something, and/or - performed an amplification test (i.e. PCR), and/or - fabricated a "genome", and/or - produced electron microscopy images of unpurified things. I am aware that according to virus theory a "virus" requires host cells in order to replicate. I am not requesting records describing the replication of a "virus" without host cells or a suspected "virus" floating in a vacuum, or private patient data; merely records that describe purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things). This includes any study/report as above, authored by anyone, anywhere. I require citations for any such records that are publicly available and thus not provided.

Having completed a thorough search, we regret to inform you that we were unable to locate any records responsive to your request. The subject matter expert provided the following explanation: The National Microbiology Laboratory has never done any work on purification of HPV viral particles from any kind of specimen. There are reports in the literature of methods of purification of viral-like-particles (VLP) in connection with vaccine preparation or antigen purification for serology tests, but it is not NML's work and the requester should look at the published literature.

Canada

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Public Health Service

Centers for Disease Control  
and Prevention (CDC)  
Atlanta GA 30333  
November 1, 2021

Ms. Christine Massey

Via email: cmassey@gmail.com

Dear Ms. Massey:

This letter is in response to your Centers for Disease Control and Prevention and Agency for Toxic Substances and Disease Registry (CDC/ATSDR) Freedom of Information Act (FOIA) request of October 6, 2021, for:

*Please note: this request is very similar to another request that I submitted on March 1, 2021 (21-00788-FOIA) where I had specified purification via maceration, filtration and use of an ultracentrifuge and received a "no records" response. The difference with this new request is that it does not specify maceration, filtration and use of an ultracentrifuge; it only mentions filtration, ultracentrifugation and chromatography by way of an example.*

**Description of Requested Records:**

*All studies and/or reports in the possession, custody or control of the Centers for Disease Control and Prevention (CDC) and/or the Agency for Toxic Substances and Disease Registry (ATSDR) describing the purification (i.e. via filtration, ultracentrifugation and chromatography) of any "influenza virus" and to have caused disease in humans, directly from a sample taken from a diseased human, where the patient sample was first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).*

*Please note that I am not requesting studies/reports where researchers failed to purify the suspected "virus" and instead:*

- cultured something, and/or
- performed an amplification test (i.e. PCR), and/or
- fabricated a "genome", and/or
- produced electron microscopy images of unpurified things.

*For further clarity, please note I am already aware that according to virus theory a "virus" requires host cells in order to replicate, and I am not requesting records describing the replication of a "virus" without host cells.*

*Further, I am not requesting records that describe a suspected "virus" floating in a vacuum; I am simply requesting records that describe its purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things).*

*Please note that my request includes any study/report matching the above description, authored by anyone, anywhere.*

*If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.*

A search of our records failed to reveal any documents pertaining to your request.

You may contact our FOIA Public Liaison at 770-485-6277 for any further assistance and to discuss any aspect of your request. Additionally, you may contact the Office of Government Information Services (OGIS) at the National Archives and Records Administration to inquire about the FOIA mediation services they offer. The contact information for OGIS is as follows: Office of Government Information Services, National Archives and Records Administration, 8601 Adelphi Road-OGIS, College Park, Maryland 20740-6001, e-mail at ogis@nara.gov; telephone at 202-741-5770; toll free at 1-877-684-6448; or facsimile at 202-741-5769.

If you are not satisfied with the response to this request, you may administratively appeal to the Deputy Agency Chief FOIA Officer, Office of the Assistant Secretary for Public Affairs, U.S. Department of Health and Human Services, via the online portal at <https://requests.publiclink.hhs.gov/App-Index.aspx>. Please mark both your appeal letter and envelope "FOIA Appeal." Your appeal must be electronically transmitted by January 30, 2022.

Sincerely,

Roger Ansoh

**Response to your request for official information**

Thank you for your request under the Official Information Act 1982 (the Act) to the Ministry of Health (the Ministry) 13 October 2021 for:

*"All studies and/or reports in the possession, custody or control of the NZ Ministry of Health describing the purification of any "Marburgviruses" (for example: via filtration, ultracentrifugation and chromatography), directly from a sample taken from a diseased human where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum)."*

The Ministry does not conduct scientific research or studies. Please refer to online scientific studies for further information: <https://pubmed.ncbi.nlm.nih.gov/>

As such, your request is refused under section 18(g)(i) of the Act as the information requested is not held by the Ministry and there are no grounds for believing it is held by another agency subject to the Act.

For more information regarding COVID-19 please refer to the Ministry of Health website: <https://www.health.govt.nz/our-work/diseases-and-conditions/covid-19-novel-coronavirus>

Under section 28(3) of the Act you have the right to ask the Ombudsman to review any decisions made under this request. The Ombudsman may be contacted by email at: [info@ombudsman.parliament.nz](mailto:info@ombudsman.parliament.nz) or by calling 0800 802 602.

Nāku noa, nā

Nick Allan  
Manager, OIA Services  
Office of the Director-General

22 de octubre de 2021:

**la Universidad de Otago de Nueva Zelanda** confirmó que no tienen constancia de que el presunto "virus de Marburg" haya sido purificado de ninguna muestra de primates humanos o no humanos, por nadie, en cualquier lugar del planeta:

<https://www.fluoridfreepeel.ca/wp-content/uploads/2021/10/University-of-Otago-Marburg-redacted-2021-10-22-.pdf>

22 October 2021

I refer to your request for information under the Official Information Act (Act) dated 13 October 2021.

You have requested "All studies and/or reports in the possession, custody or control of the The University of Otago describing the **purification** of any "**Marburgviruses**" (for example: via filtration, ultracentrifugation and chromatography), directly from a sample taken from a diseased human where the patient sample was not first combined with any other source of **genetic** material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum)."

I can confirm that the University holds no records which fall within scope of your request. Accordingly, we decline your request pursuant to section 18(g) of the Act on the basis that the information requested is not held by the University.

If you are not satisfied with our response to your information request, section 28(3) of the Act provides you with the right to ask an Ombudsman to investigate and review this response. However, we would welcome the opportunity to discuss any concerns with you first.

Yours sincerely

A handwritten signature in black ink, appearing to read "Kelsey Kennard".

Kelsey Kennard  
Official Information and Compliance Coordinator  
Office of the Registrar

22 de octubre de 2021: **la Agencia de Salud Pública de Canadá** confirmó que no tienen constancia de que el presunto "**virus de Marburg**" haya sido purificado de ninguna muestra de primates humanos o no humanos, por nadie, en ningún lugar del planeta. Pdf de la carta:

Our file: PHAC-A-2021-000425 / CS

Christine Massey  
 [Redacted]  
 Peterborough, Ontario  
 [Redacted]

Dear Christine Massey:

This is in response to your request made under the *Access to Information Act* (the Act) for the following information:

All studies and/or reports in the possession, custody or control of PHAC describing the purification (i.e. via filtration, ultracentrifugation and chromatography) of any "Marburg virus", directly from a sample taken from a diseased human or non-human primate, where the sample was not first combined with any other source of genetic material (i.e. a cell line; fetal bovine serum). Clarification: I am not requesting studies/reports where researchers failed to purify the suspected "virus" and instead: - cultured something, and/or - performed an amplification test (i.e. PCR), and/or - fabricated a "genome", and/or - produced electron microscopy images of unpurified things. I am aware that according to virus theory a "virus" requires host cells in order to replicate. I am not requesting records describing the replication of a "virus" without host cells or a suspected "virus" floating in a vacuum, or private patient data; merely records that describe purification (separation from everything else in the patient sample, as per standard laboratory practices for the purification of other very small things). This includes any study/report as above, authored by anyone, anywhere. I require citations for any such records that are publicly available and thus not provided.

Having completed a thorough search, we regret to inform you that we were unable to locate any records responsive to your request. Our subject matter expert has provided the following explanation: The National Microbiology Laboratory does not perform purification on Marburg virus as described in this request. Our methods are "classical" virological techniques which sometimes utilize virus isolation from clinical specimens in mammalian cell culture for diagnostic and research purposes. Given that Canada has not documented an imported case caused by a high consequence pathogen, like Marburg virus as an example, we have only isolated these types of viruses on very rare occasions as a part of our function as a WHO reference centre for viral hemorrhagic diseases in response to outbreaks."

"isolation  
 in culture"  
 =  
 classical  
 unscientific  
 oxymoron  
 +  
 dilution

Canada

.../2

8 de noviembre de 2021:

**la Organización de Investigación Científica e Industrial de la Commonwealth de Australia** - CSIRO ("la agencia nacional de investigación científica de Australia") informó al solicitante que "las *búsquedas fueron realizadas por el Centro Australiano para la Preparación de Enfermedades ... y otro personal relevante y se llevaron a cabo consultas con él.*", pero "a pesar de una búsqueda extensa, *CSIRO no ha podido identificar ningún documento relevante para*" la purificación de cualquier " **Marburgvirus**" de cualquier muestra de paciente, por parte de nadie, en cualquier lugar, nunca:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/11/AUST-CSIRO-Marburg-2021-11-08-Redacted.pdf>

**Decision maker**

I am an authorised decision maker under section 23 of the FOI Act. This letter sets out my decision and reasons for the decision in relation to your request.

**Decision**

Despite an extensive search, CSIRO has been unable to identify any document relevant to your request. I must therefore refuse access, pursuant to section 24A of the FOI Act on the basis that the documents sought do not exist or cannot be found.

**Searches conducted**

Searches were conducted by, and consultation undertaken with, the Australian Centre for Disease Preparedness (formerly the Australian Animal Health Laboratory) and other relevant staff and it was confirmed that CSIRO does not hold any documents relevant to the scope of your request.

9 de noviembre de 2021:

**la Universidad de Auckland de Nueva Zelanda** no proporcionó ni citó ni siquiera 1 registro que describiera la purificación de cualquier "**Marburgvirus**" de cualquier muestra de paciente, por parte de nadie, en cualquier lugar, nunca:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/11/NZ-Auckland-University-Marburg-2021-11-09-Redacted.pdf>

Please also note that my request is **not limited** to records that were authored by The University of Auckland or that pertain to work done at/by The University of Auckland. Rather, my request includes any record matching the above description, for example (but not limited to): any published peer-reviewed study authored by anyone, anywhere, ever that has been downloaded or printed by The University of Auckland and relied on as evidence of a disease-causing "virus".

Please note, I am requesting all records regardless if the records are *publicly* available or *privately* available. If you claim the records are publicly available, please provide at least 1 link to the publically available record to validate your claim.

If any records match the above description of requested records and are currently available to the public elsewhere, please provide enough information about each record so that I may identify and access each one with certainty (i.e. title, author(s), date, journal, where the public may access it). Please provide URLs where possible.

**Re: OIA Request: Marburgviruses purification by any method**

Rebecca Ewert <r.ewert@auckland.ac.nz>

Tue, Nov 9, 2021 at 5:10 PM

I refer to your official information request of 13 October 2021. The University has not done any work relating to the "purification" of Marburg virus, and so does not hold any documents related to such work. This constitutes a refusal of your request under section 18(g) of the Official Information Act 1982 (OIA).

Records held by the University (if any) related to work on the "purification" of Marburg virus by other entities would be library material, and so not constitute "official information" under section 2(1)(e)(i) of the OIA.

You have the right to make a complaint to an Ombudsman if you are dissatisfied with this response.

Yours sincerely,

Rebecca Ewert

General Counsel

University of Auckland

9 de noviembre de 2021:

**el Instituto de Ciencia e Investigación Ambiental (ESR) de Nueva Zelanda** admite que no tienen ningún registro que describa la purificación de ningún "**virus de Marburg**" de una muestra de un

paciente, por parte de nadie en el planeta, en cualquier lugar, nunca ...  
y parece estar en desacuerdo con la definición de "purificación" del  
solicitante ("separación del presunto virus de todo lo demás en la  
muestra del paciente, según las prácticas estándar de laboratorio para  
la purificación de otras cosas muy pequeñas") - LOL.

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/11/NZ-ESR-Marburg-2021-11-09-Redacted.pdf>

9 November 2021

[REDACTED]

**Official Information Act Request: Purification of Marburg Viruses**

On 13 October 2021 you sent a request for information under the Official Information Act 1982 to ESR as follows:

*"All studies and/or reports in the possession, custody or control of the ESR describing the purification of any "Marburgviruses" (for example: via filtration, ultracentrifugation and chromatography), directly from a sample taken from a diseased human where the patient sample was not first combined with any other source of genetic material (i.e. monkey kidney cells aka Vero cells; fetal bovine serum).*

*Please note that I am not requesting studies/reports where researchers failed to purify the suspected "virus" and instead:*

**Our response to your request:**

Using the definition of 'purification' that you refer to in your request, ESR does not hold any information related to the 'purification' of Marburg viruses.

## "Virus del sarampión"

June 7, 2021:

CDC admitted they have no record of "measles virus" purification from a patient sample via maceration, filtration and use of an ultracentrifuge, by anyone, anywhere, ever:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/06/CDC-FOIA-request-response-no-records-re-measles-virus-purification.pdf>

**Brighton and Hove City Council** have confirmed for Yvonne Hobs that they have no records:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/11/Brighton-Measles-PACKAGE-redacted.pdf>

**Nottingham City Council/Public Health** have confirmed for Yvonne Hobs that they have no records:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/11/Nottingham-County-Council-PACKAGE-redacted.pdf>

## “MERS virus”

**June 10, 2021:**

**CDC** admits they have no record of any “**MERS virus**” purified from any patient sample via maceration, filtration and use of an ultracentrifuge, by anyone, anywhere, ever:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/06/CDC-MERS-request-response-no-records.pdf>

**Nottingham City Council/Public Health** have confirmed for Yvonne Hobs that they have no records:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/11/Nottingham-County-Council-PACKAGE-redacted.pdf>

## “Polio virus”

**June 10, 2021:** **CDC** admits they have no record of any “**polio virus**” purified from any patient sample via maceration, filtration and use of an ultracentrifuge, by anyone, anywhere, ever:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/06/CDC-FOIA-request-response-no-records-polio-virus-purification.pdf>

**Brighton and Hove City Council** have confirmed for Yvonne Hobs that they have no records:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/11/Brighton-Polio-PACKAGE-redacted.pdf>

**Nottingham City Council/Public Health** have confirmed for Yvonne Hobs that they have no records:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/11/Nottingham-County-Council-PACKAGE-redacted.pdf>

## “West Nile virus”

September 1, 2021:

**US Centers for Disease Control and Prevention** confirms that a search of their records revealed no documents whatsoever pertaining to the isolation/purification of any **"West Nile virus"** from any patient sample on the planet, by anyone, anywhere:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/09/CDC-West-Nile-Request-package-redacted.pdf>

## "XMRV"

**CDC** has no record of **"XMRV"** purification/isolation:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/04/XMRV-request-response.pdf>

## "Zika virus"

**March 19, 2021, U.S. CDC** (Centers for Disease Control and Prevention) and the **Agency for Toxic Substances and Disease Registry** (ATSDR) admit they have no record of any **"Zika virus"** isolated/purified from a patient sample, by anyone, anywhere on the planet, ever:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/03/FOIA-request-response-CDC-re-Zika-isolation.pdf>

**Brighton and Hove City Council** have confirmed for Yvonne Hobs that they have no records:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/11/Brighton-Zika-PACKAGE-redacted.pdf>

**El Ayuntamiento de Nottingham / Salud Pública** han confirmado a **Yvonne Hobs** que no tienen registros:

<https://www.fluoridefreepeel.ca/wp-content/uploads/2021/11/Nottingham-County-Council-PACKAGE-redacted.pdf>

Gu?
