FDA fails another "virus" FOIA challenge: can't cite scientific evidence of "SARS-COV-2" or contagion... or valid tests.. or a genome or... anything, actually

September 13, 2024:

Sarah B. Kotler (“J.D.”) acting as Director, Division of Freedom of Information, **US Food and Drug Administration (FDA)** officially **responded** to my FOIA order for studies held by the FDA, ***authored by anyone, anywhere***:

1. that **scientifically prove/provide evidence of the existence of the alleged SARS-COV-2**, or

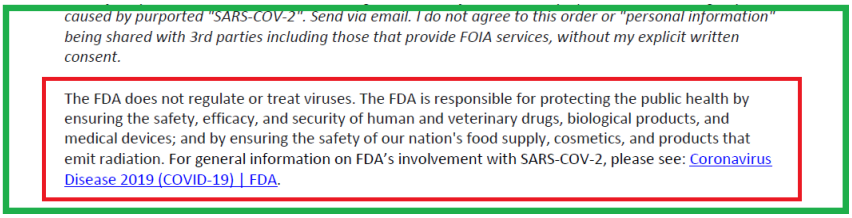
2. that even describe the **purification of particles alleged to be SARS-COV-2** directly from bodily fluid/tissue/excrement of so-called "hosts", or

3. that describe **the purported "genome" of the alleged SARS-COV-2 being found intact** in the bodily fluid/tissue/excrement of a so-called "host" (as opposed to fabricated in silico, aka computer modelled), or

4. that **scientifically demonstrate the claimed contagious nature of the illness / symptoms** allegedly caused by the (never-shown-to-exist) **SARS-COV-2**.

In Sarah’s September 13, 2024 “SARS-COV-2” response letter (**FDA FOIA 2024-7837)** (**pgs 9/10**) she recycled wording and excuses used in responses to equivalent FOIA orders relating to the alleged “**monkeypox virus**” and “**avian influenza virus**” - for which the “experts” at FDA also have **no scientific evidence**. Here are the recycled sentences:

> “The FDA does not regulate or treat viruses. The FDA is responsible for protecting the public health by ensuring the safety, efficacy, and security of human and veterinary drugs, biological products, and medical devices; and by ensuring the safety of our nation's food supply, cosmetics, and products that emit radiation.”



caused by purported "SARS-COV-2". Send via email. I do not agree to this order or "personal information" being shared with 3rd parties including those that provide FOIA services, without my explicit written consent.

The FDA does not regulate or treat viruses. The FDA is responsible for protecting the public health by ensuring the safety, efficacy, and security of human and veterinary drugs, biological products, and medical devices; and by ensuring the safety of our nation's food supply, cosmetics, and products that emit radiation. For general information on FDA's involvement with SARS-COV-2, please see: Coronavirus Disease 2019 (COVID-19) | FDA.

However this time Sarah omitted the following key sentence that normally follows, so illogically and embarrassingly, the above sentences in her “virus” FOIA confessions:

> “**Therefore, we have no responsive records**.”

Please see for yourself: **here** is what Sarah wrote in her monkeypox virus/contagion/genome response (FDA FOIA 2024-7353)…

The FDA does not regulate or treat viruses. The FDA is responsible for protecting the public health by ensuring the safety, efficacy, and security of human and veterinary drugs, biological products, and medical devices; and by ensuring the safety of our nation's food supply, cosmetics, and products that emit radiation. Therefore, we have no responsive records. If you are interested, we

…and **here** is what Sarah wrote in her avian influenza virus/contagion/genome response (FDA FOIA 2024-6486):

The FDA does not regulate or treat viruses. The FDA is responsible for protecting the public health by ensuring the safety, efficacy, and security of human and veterinary drugs, biological products, and medical devices; and by ensuring the safety of our nation's food supply, cosmetics, and products that emit radiation. Therefore, we have no responsive records. If you are interested, we have already made information public regarding the milk supply (Updates on Highly Pathogenic Avian

Those are the exact same sentences as in Sarah's new "SARS-COV-2" response. The only difference is that this time she left out the actual response/confession: "***we have no responsive records***".

The "logic" at play in "J.D." (Juris Doctor) Sarah B. Kotler's previous confessions is that the "experts" at FDA determine the accuracy of tests and the efficacy of quackcines, other drugs, devices, etc. by **NOT** having a shred of scientific evidence showing that the purported "viruses" in question actually exist and by **NOT** having a valid gold standard against which to assess the products that they rubberstamp… and that this is how the geniuses at FDA "protect public health"… which of course makes zero sense.

As insane as that sounds, you can see it for yourself in Sarah's earlier response letters by clicking on the links above.

I have asked Sarah for a revised SARS-COV-2 response that actually answers my FOIA order and she will likely get back to me with an explicit confession that the "experts" at FDA have been caught bluffing, once again. Her only other option will be to cite pseudoscientific studies. Either way, the response will bring further embarrassment, disgrace and evidence of criminality onto the clown-show called FDA.

Christine, an unincorporated woman
to Sarah

Thank you Sarah, bu you forgot the key line in your latest confession letter:

...we have no responsive records.

Please send a revised letter that answers my FOIA order.

Thanks in advance,
Christine

How can I be so confident that Sarah won't be able to cite any valid scientific evidence? Because the foundational "SARS-COV-2" studies are idiotic, as is virology as a whole, and because 224 institutions in 40 countries were already formally challenged and demonstrated that they also cannot cite a shred of scientific evidence for the existence of SARS-COV-2 (see the links to **Official Confessions/Evidence** further below).

If you are new to this topic there is a massive body of educational material awaiting your discovery, some of which can be found **here**.

Fortunately, anyone can understand the problems with virology once they are pointed out.

Official Confessions/Evidence Showing that Virology is Pseudoscience

Freedom of Information Responses reveal that **health/science institutions around the world (224 and counting!) have no record of SARS-COV-2** (the alleged convid virus) **isolation/purification, anywhere, ever:**
