

## **CurrentPrinter by Chris Gingerich**

Shows and allows you to set the default printer.

### **TO USE**

Run CurrentPrinter.exe. There will be a system tray icon. Right click on the icon to see the list of printers. There will be a check next to the default printer. Click on the printer you want to set as default.

### **VERSION HISTORY**

- 1.9.25.2018 - Removed changing printer dialog title. Now lists printers in menu allowing to change default printer.
- 1.0 - Initial release. It just changed any Printer dialog title to Printer - [Default printer name]
