Permethrin..... 1.7 g/liter
Inert Ingredients..... 195.9 g/liter
(Nitrogen and Resins)
Petroleum Solvent..... 30 l/liter

Net Content: 1 Liter

KEEP OUT OF REACH OF CHILDREN

DESCRIPTION

Solignum Colourless AZ is a wood preservative that penetrates into the wood and remains there as an active barrier against wood boring insects, wood destroying fungi and termites.

It is formulated for use in all situations, against fungi insects and termites and is intended for both remedial use and pre-construction treatment of all timbers. Timber treated with Solignum Colourless AZ remains its original appearance and can be painted or varnished over if desired.

DIRECTION FOR USE

Solignum Colourless AZ can be applied by brush, immersion or spray to bare dry wood. Before treatment, timber should be clean, free of paint or varnish and with no surface moisture. Cut areas of treated wood should be given a further liberal application. Treated timber can be painted over and glued when dry.

COVERAGE

Covers 4-8 square meters per liter (200-400 sq. ft. per gallon) depending on the porosity of the wood.

PROHIBITION & WARRANTY STATEMENT

It is a violation of government rules and regulation to use this product in a manner inconsistent with the instructions on its label. No warranty of any kind, expressed or implied is made concerning the use of this product. User assumes all the risks and liabilities resulting from handling, use or application.

WARNING

Irritating to eyes and skin. Wear overalls and protective protection. Ensure adequate ventilation before applying. Avoid inhalation of spray or mist or wear suitable equipment. **FLAMMABLE:** Keep away from heat, sparks and flames.

SAFETY PRECAUTION

Wash the original container, tightly closed. Wash hands and exposed skin before eating and after work. Wash contaminated clothing separately. Avoid consumption of any water supply with contact or spray residue. Observe all container warnings.

BABALA

Mahapdi sa kamay at balat. Magsuot ng wastong kasuotan, gwantes at proteksyon sa mata o mukha. Siguraduhin na may sapat na bentilasyon kapag gumagamit. Iwasang makalanghap ng singaw ng produkto o gumamit ng wastong proteksyon. **MADALING MAGLIYAB.** Ilayo sa mainit o nagliliyab na bagay.

PAALALA

Itago sa orihinal na lalagyan at isara nang mabuti. Hugasang mabuti ang mga kamay matapos gamitin ang produkto. Ilayo sa mga bata at hayop. Huwag itapon ang produkto sa kanal o ano mang daluyan ng tubig. Itapon ng wasto ang lalagyan matapos gamitin.

FIRST AID TREATMENT

1. IF SWALLOWED and patient is conscious, give 1-2 glasses of water. Do not induce vomiting. If feasible, you may do careful gastric lavage.
2. IF INHALED, remove patient from contaminated area, and bring him to where there is fresh air.
3. IN CASE OF SKIN CONTACT, remove contaminated clothing and wash affected areas with plain soap and water.
4. IN CASES OF SPLASHES IN THE EYES, rinse eyes with clean running water for at least 15 minutes.

**IN ALL CASES
GET MEDICAL ATTENTION IMMEDIATELY**

NOTE TO PHYSICIAN

Use cause irritation and sensitization on exposure of skin and mucous membranes. In case of symptoms, discontinue use. Treat symptomatically. Discontinue use if irritation, sensitization of fluid and allergic reaction is not passing, avoid heat, sun and water. Administration and hydrocortisone may reduce the inflammatory reaction.
