Battery

24V 6AH * 2 pcs

Charger

24V 2A

Simple locking structure design for easy folding with single hand

Dot touch type lithium battery which is safe and convenient

Electric wheelchair

Product advantage

- Simple touch for folding and unfolding, quick and easy, compact folded size aluminum frame, lightweight and portable
- Alloy frame makes lightweight and easy to carry
- Detachable lithium ion battery for easy to take away, light and safe
- Armrest upward movement design for easy to mount on chair
- Low power consumption, low sound, maintenance free and powerful brushless motors

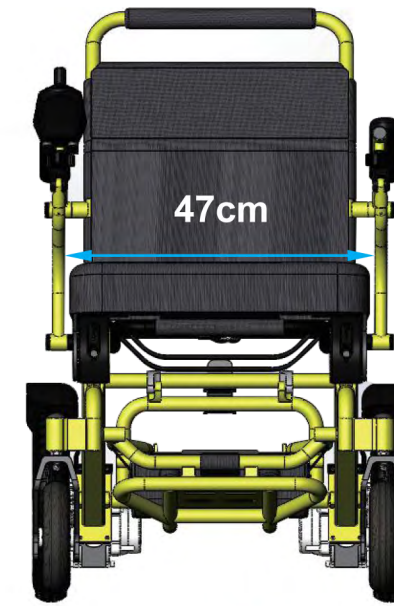

Electric wheelchair

Optional foot pedal
