Features:

- * The Machine is built with luxury appearance and easy operation and low cost of maintenance
- * Inside material tank made in pure stainless steel that can resist hydrochloric acid corrosion.
- * Operation is easy
- * Several types of Popsicle moulds for selection.
- * Stainless steel mould can resist corrosion
- * Mould has auto-shell function and easy to work
- * Airproof cover and keep the material use long time .
- * Low capital investments with max production
- * Make profit from water , incredible profit potential .
- * You can use one machine to produce 3 kinds of product: popsicle , small ice block , ice candy .
